

MISSION POSSIBLE: INDIA

Project Profiles 2017-18

TEAM BLOSSOM - VIDYASHILP ACADEMY

This team focused on raising awareness about the benefits of terrace gardening. They partnered with experts to conduct terrace gardening workshops to raise awareness on making cities and towns sustainable. They visited apartment complexes and distributed air purifier plants, kitchen herbs and other plants which have medicinal properties.

Project Objectives:

- Spread awareness on importance of organic plants
- Inculcate the spirit and habit of cultivating terrace gardens
- Ensure homes have plants both indoors and outdoors

Activities:

- Raised funds by organizing a bake sale
- Researched and bought 6 different kinds of medicinal and air purifier plants and some kitchen herbs
- Distributed these plants to various households in apartment complexes along with details about the maintenance and benefits of the plant

Results:

- Increased awareness about the benefits of having plants in one's living environment
- Received positive feedback from the community about the benefits of terrace gardening
- Contributed to a greener society and city

Next Steps: These Agents of Change plan to continue their research on different kinds of plants and their benefits
